BOPP TAPE

Microns: 38,40,42,50,54,65
Size: 12,24,36,48,60,72,96,144,288MM
LENGTH: 40,50,65,100.Mtr (As per clients Requirement)
Color: Brown, Transparent, White, Red, Blue, Yellow etc
Printing: One Color Printing, Two Color Printing, Reverse Printing,
As Per Clients Requirement

BOPP Tapes are the most commonly used packaging tape that has excellent optical and mechanical properties with BOPP Tapes are used in various applications labelling and lamination,

High-Strength Composition: Cross filament tape is made of polypropylene or polyester film, reinforced with fiberglass filaments arranged in a cross or bi-directional pattern for enhanced tensile strength. Adhesive Quality: The adhesive layer, typically synthetic rubber or acrylic, provides strong adhesion to various surfaces, ensuring a secure bond.

STRETCH FILM

- ✦ Width: 100MM to 1200MM
- ✦ Thickness: 9mic to 90 mic
- ✦ Grade: Manual Grade Stretch Film
- ✦ Length: As per Client Requirement
- ✦ Baby Roll Stretch Film
- ✦ Machine Grade Stretch Film

Stretch films or wraps are stretchable plastic films that are used to wrap a product to keep them in place securely, they are commonly used in shipping pallets to keep products and boxes locked- during shipping the elastic recovery of stretch wrap keeps the items tightly bound

AIR BUBBLE ROLLS

LENGTH - 100M
COLOUR - WHITE
SIZE/DIMENSIONS - 15MTBS X100MTBS
BUBBLE DIAMETER - 100MM
DENSITY - 90MG

HDDPE

COLOUR - TRANSPARENT
APPLICATION - TEXTILE SHOP
PATTERN - PLAIN
IS IT WATER PROOF - WATER PROOF
FLOOR IN - NEW ONLY

LDPE

PACKAGING TYPE - ROLL
USAGE/APPLICATION - INDUSTRIAL
COLOUR - TRANSPARENT
MATERIAL - LDPE
FEATURES - TRANSPARENT COVERS
USED FOR BULK MATERIALS PACKAGING
